[CODSOFT]

MARCH 2024 – APRIL 2024

- Developed websites utilizing tools like HTML, CSS and JAVASCRIPT.

FREELANCING

- Built a simple website for a small local company in Queenstown, Eastern Cape that is mainly into catering, delivery services, Cleaning and Supplying goods .
  (Gumbaza Trading (PTY) LTD)

MOTIVATIONAL LETTER

Please take your time and read the following.

I Hloma Mbalula, currently transitioning into software engineering, I embarked on a Journey in Architecture. I was captivated by the creativity and design elements it offered but during my architectural studies I encountered personal challenges that prompted deep self-reflection and that ultimately steered me towards software engineering. Navigating through these challenges cultivated resilience and determination, steering me to seek a career that aligns more closely with my passion for coding and problem solving.

Transitioning into the field of software engineering isn't just a career pivot for me, it's a reflection of my deep commitment to growing personally and professionally. The hurdles I encountered were not roadblocks but rather stepping stones that led me to a field where my skills and enthusiasm can genuinely thrive. I'm genuinely thrilled about the idea of making a meaningful impact in the dynamic world of technology.

My background in Architecture school has honed my analytical and problem-solving skills, encouraging a well organised approach to design and a strong attention to detail. I am confident that these qualities, coupled with my upcoming technical training, will position me as a valuable asset to the software engineering industry.

I am constantly eager to learn new and valuable skills which serves as a huge advantage in the Tech industry, because that means constant improvement as a developer. I approach every situation with an open mind and willingness to learn from it.

Thank you for considering my application. I look forward to the possibility of discussing my unique background and passion for software engineering. Thank you for your time.

Kind Regards

Hloma Mbalula
